- BE THE BEST -

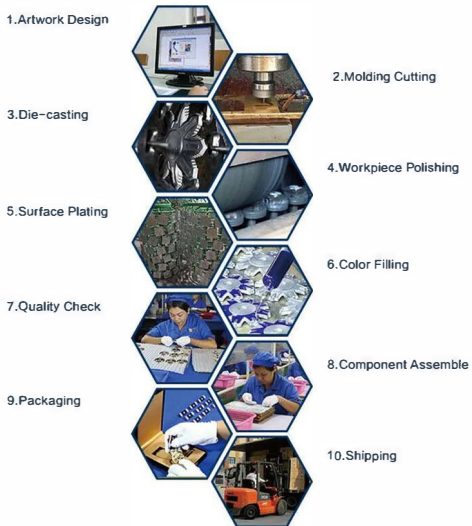

30 Years of Manufacturing Experience
OEM & ODM Available, Free Design
Fast Delivery, Quality Assurance

ABOUT US

Wenzhou Alice Crafts Co., Ltd is a dynamic manufacturing and trading company based in Wenzhou, Zhejiang. We specialize in producing a wide range of products, including medals, metal badges, coins, key-chains, bottle openers, and fridge magnets etc.

In addition to the items produced in our own factories, we collaborate with several affiliated companies that supply us with additional products for our international markets. Our manufacturing facility spans 10,000 square meters. Our factory adheres to a rigorous quality management system and is continuously improving its management practices.

Manufacturing Process:

1) Alloy die-casting: Alloy liquid mixture of zinc, aluminum, copper, and magnesium is injected into the mold and shaped to form the prototype. The metal part passes the EU ROHS and contains no harmful substances.

2) Finishing Medals: The rough material is molded by polishing and grinding to remove the excess part and make the embryo material finer.

3) Color plating: Semi-finished medals are chemically dipped and plated with brand new metal color. The medals are more durable after color plating and oil sealing.

4) Coloring: According to the customer' s approved design, the medals are coated with SGS-tested paint, baked enamel mixture or printed.

5) Assembly: The finished processed medals and other accessories are assembled and put into customized boxes for packing and shipping.
